WORK EXPERIENCE:

9 Month as a Php Laravel Developer at Manacle Technologies Pvt. Ltd. - India.

During this period:

- I worked on **live project** of **ERP** of **Synergy Waste Management Pvt. Ltd**, which facilitates client management, waste management, billing, payment management, role wise module access management, url blocking and many more.
- I also worked on **live project** of **Admin Panel** of **Ramanujan College, (DU)**, In which i developed leave application module from leave apply to approval, role wise module access and url blocking.
- I also developed dynamic crud module, by which we can develop **form crud** like **google form crud** without coding.

Additional:

- I also developed an **e-commerce website with admin panel** for my friend's shop.
